

Brooklyn Technical High School Auditorium

Sound and Lighting Packages

The following sound and lighting packages are provided as a service by Brooklyn Technical High School. All packages include all administrative costs encumbered by Brooklyn Technical High School related to the planning of the event in question. The below prices DO NOT include the basic custodial and security costs that are attached to the Extended Use Permit. Unless otherwise indicated all of the below prices are figured based on a four hour event with one hour available for staff set-up before the event and a one hour striking period at the conclusion. Any additional time needed before or after the event requires additional permit time and will require a \$50.00 per person, per hour, charge for necessary technical or support staff.
