INTERNSHIP NOTICE #27

As an educator in the community, we ask you to help us spread the message about this wonderful opportunity both for students in the Asian-American community.

Maybe you’ve heard of us

First established in 1996, the Summer Internship Program (SIP) is a community-oriented program providing participating students and organizations with the opportunity to give back to the Asian-American community.

For students, our 7-week internship program offers volunteering and professional development opportunities in the Asian-American community. It’s a great résumé builder with great volunteer opportunities.

For almost the past two decades we have relied on educators like you to help us reach out to eligible students to learn about our program. We have arranged internships for hundreds of juniors and seniors in high school.

What you can do to help:

- Get the word out! Download our tools for educators and post our flyer in your office / classroom.
- Post a link to our site on your institution’s site. [www.UnitedHealthcareSIP.com](http://www.UnitedHealthcareSIP.com)
- Maybe you know someone who would be perfect for this program? Forward them our contact information.

Students can apply to participate in this excellent program on our web site [www.UnitedHealthcareSIP.com](http://www.UnitedHealthcareSIP.com)

Because this program is 100% volunteer based—on the part of UnitedHealthcare, its partners and the greater community—we truly understand and deeply appreciate any help you can give us to make sure that 2012 is best year yet!

Thank you for your support.
