PROMYS
Program in Mathematics for Young Scientists
Professor Glenn Stevens, Director

From July 1 to August 11, 2012, PROMYS will offer an intensive experience in creative mathematical exploration to approximately 75 ambitious high school students with an exceptionally strong interest in mathematics.

PROMYS has the following goals:

- To provide an environment for young people that will arouse their curiosity and encourage a deep personal involvement with the creative elements in mathematics
- To foster interaction between the PROMYS community and the larger community of research mathematicians and scientists currently working in academia and industry
- To encourage habits of thought that lead to scientific independence and creativity

PROMYS is a six-week residential program, with a per-student cost of $2,700. (Financial assistance is available.) If you know a high school student who might benefit from the PROMYS experience, or if you would like more information, please contact us at 617-353-2563 or promys@bu.edu.

Applications are available online at www.promys.org or by writing to us at Boston University, Mathematics Department PROMYS Program, 111 Cummings Street, Boston, MA 02215. We will accept applications from February 1 until May 15, 2012.

We gratefully thank our sponsors: Linde Family Foundation, Boston University, the Clay Mathematics Institute, American Mathematical Society, National Security Agency, and Park City Mathematics Institute.
