Jobs!

High School Intern

Do you like working with kids? Are you good with your hands and building things? Are you creative and patient? Are you interested in working in a fun environment with great people to inspire kids? When you hear the word “robot” do you smile? Are you interested in having an incredibly fun internship? Then this could be the perfect position for you!

We are looking for interns to help us with our fall program. This is a part-time position and may be filled by multiple individuals.

During the sessions, we will be teaching the kids how to build robots. It is important to us that children build their own robots, so the role of the intern is to help make that happen. We will be teaching the kids the engineering concepts behind how the robots work. Your role will be to help us ensure that each child has a fantastic time! You will be working directly with the kids as well as helping us get ready before the sessions and at the end of the session.

The sessions run from 3:30-5:30 Mondays, Wednesday, Thursday and Friday. When you apply please let me know what your availability is. We are also considering doing a 1:00-2:30 preK class on Wednesdays.

It is also important to us that we have a very enjoyable time with our employees. Therefore we are looking for fun, easygoing individuals. In addition we really value our employees opinions and
thoughts because we are constantly trying to improve our program. At the end of each class we will have a short lessons learned where we will ask the staff members about things we could do to improve the program. Your opinions, thoughts and input will matter!

Please read the program descriptions here before applying to the job:

www.brooklynrobotfoundry.com/after-school

**Requirements:**
- Experience working with children (tutoring, mentoring, camp counselor) is a plus
- Enjoy working with children
- Good with your hands/building
- Extremely reliable and dependable
- Friendly
- Excellent interpersonal skills
- Patient
- Collaborative
- Flexible
- Proactive, self starter

**Responsibilities:**
- Working with the kids while they are building
- Set-up and take-down of activities before and after class
- Walking pickup of students at nearby schools
- Help with cleaning choirs
- Helping us tweak and change curriculum to improve lessons

**Pay:** this is an unpaid internship

**Interested?**
Send your resume and a cover letter to jobs@brooklynrobotfoundry.com. Before September 20th
Please make the subject of the emails “Intern Position”.

Tell us why you think you would be a good fit and describe your previous work experience with children. We also want to know what types of things you like to build and make.

Thanks!
